

# Laser 3000™

## Powerful Laser Therapy at work for you

THE LASER 3000™ IS IDEAL FOR VETERINARIANS, OWNERS AND TRAINERS

The Laser 3000™ Veterinary Laser combines powerful laser therapy in the convenience of a portable and professionally designed hand held unit. The unit can be used either with a single and or cluster head that operate off the same base unit. The Laser 3000™ is FDA Approved for the Veterinary market and comes with a 2 year warranty, laser safety eyewear, re-chargeable batteries, RF interlock and treatment protocols written by a Veterinarian.

Ergonomically designed including the latest safety features, the Laser 3000™ has a maximum output power of 450mW and is a Class 3B laser. The therapeutic effects of laser therapy include an increase in circulation, thereby reducing inflammation, pain and swelling in damaged tissues. Joint flexibility is also improved and the injured area is returned to its normal state quickly and effectively without the need for drugs.

### FEATURES

- SINGLE AND OR CLUSTER HEAD
- 14 PRE-SET PROGRAMS
- UP TO 450MW OUTPUT POWER
- SAFE AND EASY TO USE
- CONTINUOUS AND PULSED FREQUENCIES
- RF INTERLOCK
- ERGONOMIC DESIGN
- CLASS 3B LASER
- 2 YEAR WARRANTY
- TREATMENT PROTOCOLS

## The future of laser therapy is here

DEEP PENETRATING LASER THERAPY PROVIDES FAST AND EFFECTIVE PAIN RELIEF

### TREATMENT PROTOCOLS

The Laser 3000™ comes with a series of treatment protocols and procedures specifically written for the unit. The 14 programmable pre-set programs make treating injured animals an easy and straightforward procedure. Unlike Class IV lasers that can burn the skin, the Laser 3000™ is a Class 3B cold laser. By following the recommended treatments, the injured muscles will receive the required dosage, thereby promoting healing.

### SAFE AND EASY TO USE

The Laser 3000™ comes with an RF interlock that allows for safe use of the unit. The Laser 3000™ delivers the required dosage (Joules) to the damaged area safely and effectively.

Vets, owners and trainers will find the high performance of the Laser 3000™ ideal for use either in the office or out in the field.

Advantages of the Laser 3000™ are mentioned below:

Some of the injuries treatable with the Laser 3000™ include:

- Tendons
- Wounds
- Ligaments
- Muscles
- Fractures and chronic injuries

- Shorter treatment times
- Deep penetration into muscle tissue
- Rapid healing properties
- Multiple wavelengths available
- Interchangeable heads
- Promotes healing and rejuvenates cells
- Cost effective form of treatment

### ADVANTAGES OF LASER THERAPY

Laser therapy is a drug free and pain free form of treatment modality that improves and promotes the speed and quality of healing.

### The Laser 3000™

Promotes circulation to damaged tissue and in turn relaxes muscles. Laser therapy stimulates nerve function, is non pharmacological, non-invasive and increases vascular activity.

### Conditions treated

- Bruises and contusions
- Acupuncture Points
- Tendonitis
- Laminitis
- Hock Injuries
- Fetlock injuries
- Back Pain
- Arthritic Pain

### DESIGN & PERFORMANCE

The stylish design and product features of the Laser 3000™ make it an ideal accessory for the vet, owner or trainer requiring a high performing and reliable product that comes at an affordable price.
